FAQ

Questions, answered

01 How many products can I add?
The package supports up to 25 products. Additional products are quoted separately.

02 Is the app available for Android?
Yes. Android app development is included in this package.

03 What happens when a customer adds items to the cart?
The customer sends the cart as an order enquiry through WhatsApp, and you confirm the order directly. Payment and order tracking are not part of this package.

04 Is an Admin Panel included?
Yes. A basic web admin panel is included for managing products, categories, images, prices, banners and enquiries.

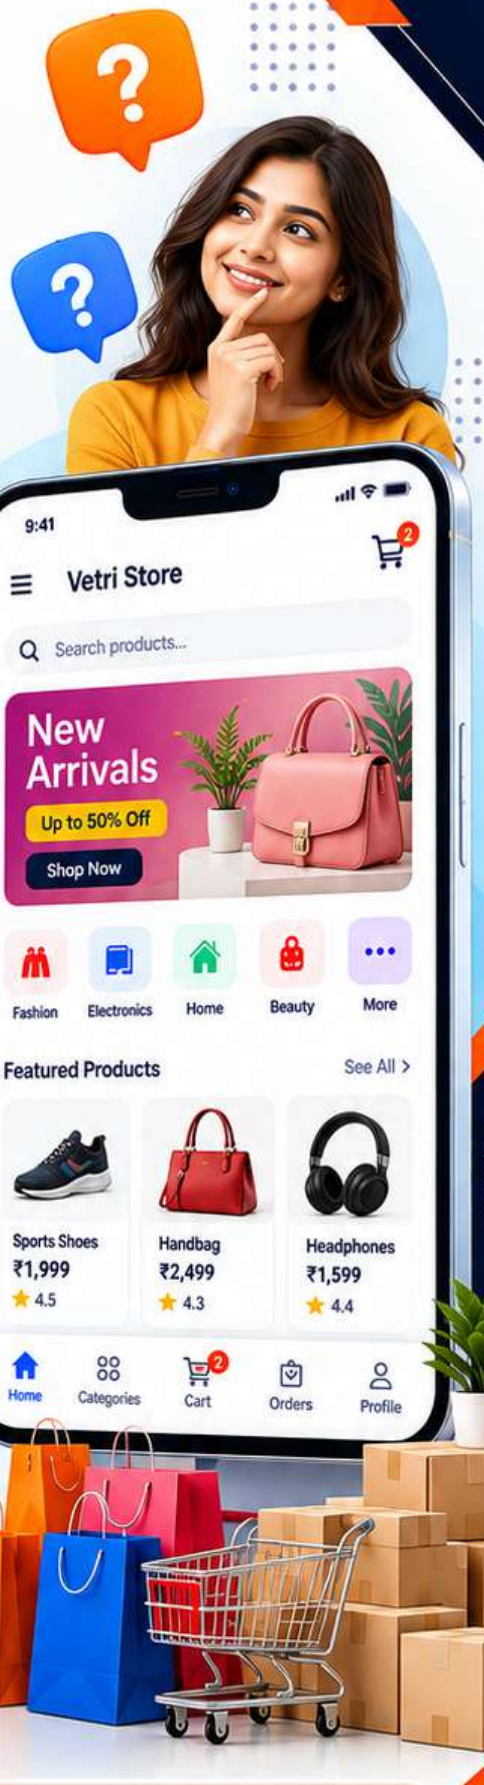

05 Is online payment included?
No. Payment gateway integration is not included and can be added separately.

06 Is a separate Admin Mobile App included?
No. A responsive web admin panel is included. A separate admin mobile app can be developed as an additional requirement.

07 Is backend / server included?
Yes. Backend setup and 1 year of backend / server support are included under fair usage. Hosting after the first year is chargeable.

08 Is support included?
Yes. 1 month of free bug-fix support is included after launch. New features or changes are chargeable.

09 What do I need to provide?
Your logo, product images and details, and business information. Google Play and Apple Developer accounts are required for publishing.

Terms & conditions apply. Google Play account fees, domain, SMS / WhatsApp API and other third-party service charges are to be borne by the client. Server hosting after the first year is chargeable.
