WHY GO MOBILE

Your customers are always on their phones

Customers spend a large part of their day on their mobile phones. A website helps them find you — an app on their home screen keeps your business one tap away, every single day.

- **Stay on your customer's home screen**
  Your brand is always one tap away.
- **Build credibility and a modern brand image**
  Look professional and trustworthy.
- **Share products, services and information instantly**
  Keep customers updated in real time.
- **Generate enquiries through Call, WhatsApp and Email**
  Make it easy for customers to reach you.
- **Make ordering, booking or enquiring easier**
  A smooth and simple user experience.
- **Offer a smoother experience than a website on a small screen**
  Faster, cleaner and more convenient.
- **Create a permanent digital presence for your brand**
  Strengthen your online presence.
- **Help customers reach you anytime, from anywhere**
  With Call, WhatsApp, Email and Maps.

DID YOU KNOW ?

Most people check their phone dozens of times a day — and spend far more of that time inside apps than in a browser. A business with its own app is easier to remember, easier to reach and easier to return to. Every VIS mobile app is built with Call, WhatsApp, Email and Map actions from day one.

INSIDE YOUR APP

What your business app can include

Every mobile app is built around what your customers actually need to see and do.

01 Business Introduction
Who you are, what you do, and what makes your business different.

02 Products & Services
Present your offerings in a clear, customer-friendly format.

03 About Your Business
Build trust by sharing your story, experience and expertise.

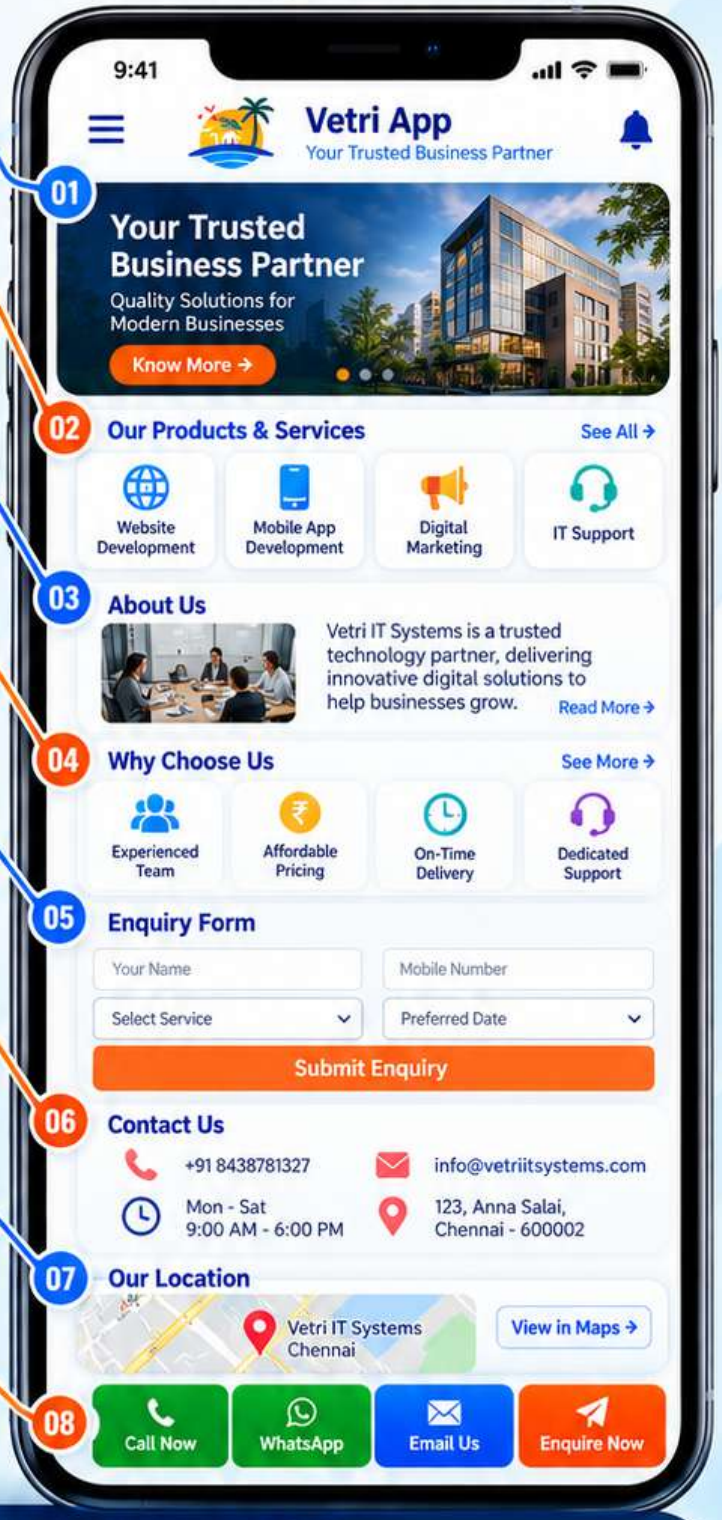

04 Why Choose Us
Highlight your strengths, benefits, experience and USPs.

05 Customer Enquiry Form
Give customers an easy way to enquire about your services.

06 Contact Information
Phone number, WhatsApp, email, address and business hours.

07 Location Integration
Help customers find you through Google Maps.

08 Call-to-Action Buttons
Encourage users to Call, WhatsApp, Email or Enquire — instantly.

ONE APP. EVERY REASON

FOR YOUR CUSTOMER TO KEEP COMING BACK.

VETRI IT SYSTEMS

WHO IT'S FOR

Perfect for

Local Businesses

A modern way for customers to discover and contact you.

Startups

Launch with a professional mobile presence from day one.

Service Businesses

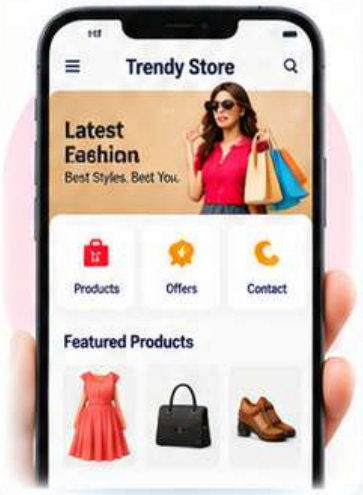

Explain your services and generate enquiries.

Shops & Stores

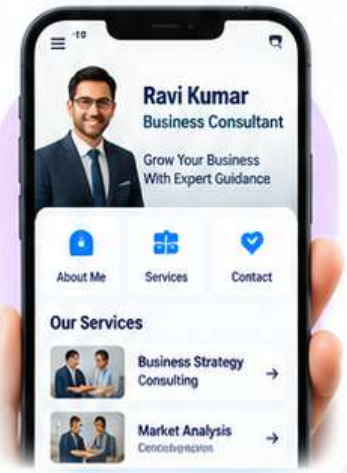

Show what you offer with easy contact options.

Consultants & Professionals

Present your expertise and services professionally.

Restaurants & Cafés

Offerings, location and contact in one place.

Clinics & Healthcare

Essential information and enquiry options for patients.

Real Estate

Introduce your business, services and property offerings.

...and many other businesses — from local shops to growing companies.

WHY US

Why choose Vetri IT Systems?

We build custom mobile apps that help your business look professional, reach more customers and grow faster.

01 Customized Design

Designed around your business and requirements — not a one-size-fits-all layout.

02 No Generic Templates

We never simply drop your content into a recycled template.

03 Mobile-First Experience

Smooth, fast and easy to use on everyday smartphones.

04 Enquiry-Focused

Call, WhatsApp, Email and Map actions built in from day one.

05 Quick Delivery

Your mobile app is ready in just 2 weeks.

06 Complete Deployment

Device testing and deployment included, end-to-end.

FAQ

Questions, answered

Here are the answers to commonly asked questions about our mobile app development service.

QUESTION	ANSWER
Do I need to provide content?	**Yes** — you share your business content, images and details, and we design and build the app around them.
Is this a template-based app?	**No.** Your app is custom designed around your business — we never simply drop your content into a recycled template.
Is GST included in the price?	**No,** ₹9,999 is exclusive of GST.
How fast will my app be ready?	Your mobile app is ready **in 2 weeks.**
Can I publish the app on Google Play Store?	**Yes** — we provide Google Play Store listing setup and deployment support for your Android app. Google Play Store publishing fees, if applicable, are separate.
